The Business Opportunity Network Code of Ethics and Expectations:

Business Opportunity Network chapters meet twice a month. This is considered an official appointment. Participants are expected to make all efforts to attend each meeting. This is how you build relationships with other members.

Participants will notify their group leader in the event they will not be able to attend a meeting.

In the event that a participant consistently misses meetings, a representative from Business Opportunity Network will contact the participant to facilitate a solution. A possible solution may be that the person forfeits their position.

Participants will dress appropriately for their industry and for a business meeting.

Participants are expected to help build the organization by referring qualified potential participants.

All group conversations are considered confidential. Participants agree they will not discuss the conversations with others.

Participant acknowledges and agrees to uphold the Business Opportunity Network Code of Ethics and Expectations. Participant understands that any violation of the Code of Ethics and Expectations or this Agreement empowers Seize This Day to revoke participant's privileges in the Business Opportunity Network in its sole discretion.
